

# ADITYANARAYAN PATI

Full Stack Developer

☎ 7789998067 ✉ adityanarayanpati7@gmail.com 🔗 LinkedIn 📍 Hyderabad, India

## PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience designing and delivering scalable web applications using React.js, JavaScript (ES6+), Node.js, Express.js, and MySQL. Skilled in building reusable component libraries, integrating RESTful APIs, managing state with Redux Toolkit, and boosting performance through lazy loading, code splitting, and memoization. Proven ability to deliver high-quality solutions in Agile/Scrum environments.

## WORK EXPERIENCE

### Developer | Full-time

Dec 2022 - Present

*Virinchi Limited*

On-site • Hyderabad

- Boosted application performance by 40% via code splitting, lazy loading, and memoization, measurably improving Core Web Vitals and user experience.
- Architected scalable, reusable React.js components using Hooks, Redux Toolkit, TypeScript, and Material UI, reducing cross-project development effort significantly.
- Integrated RESTful APIs via Axios, Fetch API, and React Query, improving frontend-backend data flow and reducing API integration defects.
- Built Node.js and Express.js backend services with routing, middleware, JWT authentication, and business validation logic for loan processing workflows.
- Collaborated with backend teams to optimize MySQL queries and API response handling, improving application scalability.
- Increased release quality by writing unit and integration tests with Jest and React Testing Library, reducing production regressions.
- Contributed to Agile sprint planning, peer code reviews, Git branching strategies, and CI/CD deployment pipelines.

**Technologies / Skills Used :** React, Express, Tailwind CSS, Node.js

## PROJECTS

### QFund11 – Loan Management Platform

*Developer*

- Developed scalable React.js modules for loan origination, servicing, and customer management, supporting end-to-end lending workflows.
- Integrated RESTful APIs for loan processing, customer onboarding, and third-party service connectivity, ensuring reliable data flow.
- Implemented Redux Toolkit for centralized state management, reducing state-related bugs and improving code maintainability.
- Built secure backend APIs using Node.js and Express.js to manage business workflows and loan lifecycle operations.

### Money Tree – Custom Client Lending Platform

*Developer*

- Developed reusable, client-specific React.js components supporting multiple lending products.
- Integrated REST APIs for loan application, approval, and customer onboarding workflows.
- Developed Node.js services for custom business validations and workflow automation.
- Optimized application performance through lazy loading, memoization, component refactoring, and efficient API response handling

## SKILLS

|                                     |                                       |
|-------------------------------------|---------------------------------------|
| <b>Programming Languages :</b>      | JavaScript, TypeScript                |
| <b>Frameworks &amp; Libraries :</b> | React, Express, Tailwind CSS, Node.js |
| <b>Tools &amp; Platforms :</b>      | Git, GitLab, GitHub, Postman, CI/CD   |
| <b>Databases :</b>                  | MySQL, MongoDB                        |
| <b>Languages :</b>                  | English, Hindi                        |

## EDUCATION

**Gandhi Academy of Technology and Engineering** | Berhampur, Odisha

2016 - 2020

*Bachelor of Technology (B.Tech) – Mechanical Engineering*

CGPA : 7.5/10
